TECHNICAL SKILLS

- Frontend : Flutter, React, HTML, CSS, JS
- Backend : NodeJS, Django
- Database : MongoDb, Firebase
- Programming Languages : Python, Java, C, Dart
- DSA
- Canva

PROJECTS (APPLICATION DEVELOPMENT)

Pchat Application
May 2023
- Developed a real-time chat application from scratch using Flutter and Firebase Firestore.
- Implemented features such as text messaging, group chats, and user authentication.
- Created a user-friendly interface with a modern design, enhancing the overall user experience.

Yojna Kendra (Azadi Ka Amrut Mahotsav hackathon - 2022)
Feb 2023
- We developed a website and Mobile App which will be a one stop web-portal for all the users to find the Government Schemes they are eligible for using search and criteria based filters.
- We used ReactJS for the Frontend and NodeJs and MongoDb for Backend and Flutter for Mobile-App.
- I developed Mobile App and backend for the website.

P-Post Application
Jan 2023
- Developed a Flutter application similar to Postman, allowing users to send simple GET, POST, and PUT requests from their mobile devices.
- Integrated RESTful APIs into the application, enabling seamless communication with backend services.
