TECHNICAL SKILLS

- AI/ML: TensorFlow, Keras, Numpy, Pandas
- Frontend: Flutter, React, HTML, CSS, JS
- Backend: Fast Api, Django
- Programming Languages: Python, Java, C, Dart
- DSA
- Database: MongoDB, Firebase, SQL

PROJECTS

Plant Diseases Classification

May 2024

- Trained one model for predicting the Disease of plants using computer vision(CNN) by using a Deep learning framework TensorFlow, Keras.
- I have used various data transformation and data augmentation technic to reduce data overfitting.
- Developed an API in FAST API and frontend using HTML, CSS, and JS. After user uploads leaf image of any plant in front-end will show predicted disease with confidence of every disease.

Integrated Sales and Customer Management System

Jan 2023

- The system will include features such as item, Sales employee and customer masters, an intuitive order management process, and detailed reporting capabilities to facilitate data-driven decision-making.

Real Time Chat Application

May 2023

- Developed a real-time chat application from scratch using Flutter and Firebase Firestore.
- Implemented features such as text messaging, group chats, and user authentication.

Online Two Player Chess Application

Jan 2023

- Created an interactive chess-playing platform utilizing Flutter and Firebase Firestore.
- Enabled real-time gameplay functionality, allowing users to compete against friends remotely.
- Implemented user authentication and secure data storage using Firebase Firestore

Other Projects

Jul-Sep 2022

- I have developed some games from scratch like chess, tic tac toe, Snake game

EXPERIENCE

SDE Intern, Siver Touch Technology.

- Done research work in different areas of AI/ML at IIT Gandhinagar.
- Worked with the senior team of AI/ML and IIT professors to build models that solve real-life problems.

EDUCATION

BE in IT(2020-24) | Government Engineering College Gandhinagar CPI 8.65
HSC | I.M.J Sarvavidhyalay, Balol Percentage(PCM) :82.67%
SSC | I.M.J Sarvavidhyalay, Balol Percentage : 72.26%
